Updates in chronic wound management – 1st Lecture

“Biofilm management in chronic wounds & diabetic foot ulcers”

- Objectives:**
1. To identify the challenges in chronic wound management especially on diabetic foot ulcers
 2. To understand biofilm as a leading cause of non-healing wounds
 3. To appreciate various strategies in biofilm management focusing on *MORE THAN SILVER™ Technology*

Speaker: Ms William Elizabeth

Ms William Elizabeth is an experienced Podiatrist specialized in diabetic foot. She presents extensively on advanced wound care and the diabetic foot as part of her role as Clinical Strategy Manager in ConvaTec. She still works as a clinician and mentor within the health service in the UK. She has a specialist interest in the role of biofilm and infection in the delayed healing of diabetic foot ulcers and other chronic wounds. She has presented and published at local and national congress. She has been instrumental in the creation and publication of ConvaTec case studies and clinical evidence.
